

## Series 3000: Operations, Finance, and Property

### 3400 School Safety and Security

#### *3406 Integrated Pest Management*

The District will monitor, manage, and treat pests on District property.

##### A. Pest Application

1. The Board does not authorize the application of a pesticide on District property unless a written integrated pest management program is in place for that property. The Superintendent or designee will develop, evaluate, and modify site-specific integrated pest management programs in accordance with law.
2. The Board only authorizes the lawful application of a pesticide by a certified or registered applicator who has been properly trained. After the application of a pesticide, a person may only reenter District property in compliance with restrictions identified by the applicator and required by law.
3. A “pesticide” does not include sanitizers, germicides, disinfectants, or antimicrobial agents.

##### B. Notice

1. Within 30 days after the beginning of each school year, the Superintendent or designee will provide notice to students’ parents/guardians that they will receive advance notice of the application of a pesticide.
2. Except in an emergency, the Superintendent or designee will provide at least 48 hours’ advance notice to students’ parents/guardians of the application of a pesticide. In an emergency, the Superintendent or designee will provide notice to students’ parents/guardians promptly after a pesticide has been applied.
3. Notices will comply with methods, time frames, and information requirements established by MCL 324.8316.
4. Notices are not required for the application of a pesticide that is a bait or gel formulation.

##### C. Records

Each building will maintain a copy of its integrated pest management program. Records of pesticide use and other non-pesticide pest management practices will be maintained on site.

Legal authority: MCL 324.8316; Mich Admin Code R 285.637.1 et seq.
